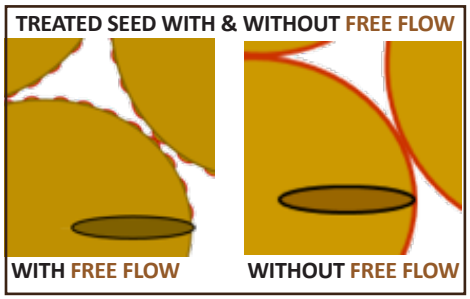
Bringing the Promise of Every Seed To Life™

FREE FLOW™

SEED TREATMENT ADDITIVE

IMPROVES TREATED SEED FLOW & PLANTABILITY & SUPPRESSES DUST-OFF



FREE FLOW™ performs by enhancing treatment coverage and dries as a hardened water soluble film on the treated seed coat.

Treated seed with **FREE FLOW** added to the mix flows and plants better with less susceptibility to dust-off.

FREE FLOW is different than most other "polymer" products that are difficult to handle and prone to settling in the container. **FREE FLOW** remains free-flowing in the jug before use and helps seed remain free flowing after treatment.

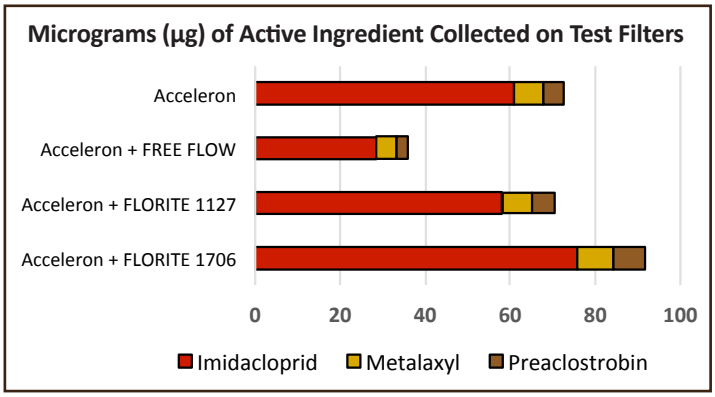
FREE FLOW is broadly compatible with insecticides, fungicides, nematicides, plant growth regulators, biologicals, and other seed treatment products labeled for slurried seed treatment.

FREE FLOW is designed for use on a broad range of crops and is especially effective in applications with soybeans as well as with high volume treatment applications such as those used on cotton.

FALL 2014 TREATED SOYBEANS DUST-OFF EVALUATION*

FREE FLOW suppressed active ingredient dust-off compared to the standard treatment by 50% and out-performed competitive polymer products.

**Dust-off collection filter residue analysis was completed by Bio Diagnostics (Eurofins); analytical method HPLC treatment concentration.*



FREE FLOW TYPICAL USE RATE:	**COTTON:** 0.25 - 0.5 fl. oz. per 100 lbs of seed **SOYBEANS:** 0.75 fl. oz. per 100 lbs of seed

COLORIZER™ CHOICE
CUSTOM COVERAGE™
FREE FLOW™ POLYMER

SEED TREATMENT ADDITIVE + COLORANT

CUSTOM MIXED POLYMER, COLORANT & SEED TREATMENT ADDITIVE

FREE FLOW™ + COLORIZER™

CUSTOM COVERAGE™ products are pre-mixed convenience formulations of **FREE FLOW™** and **COLORIZER™** colorant. **CUSTOM COVERAGE** products are designed to help seed care operators localize their treatment offerings along with added value to the seed and their operation.

COLORIZER™ RED
CUSTOM COVERAGE™ RED
FREE FLOW™ POLYMER

CUSTOM COVERAGE RED–AVAILABLE IN MULTIPLE VARIATIONS

For example, **CCR 075050** delivers 0.75 fl oz of **FREE FLOW** and 0.50 fl oz of **COLORIZER RED** when applied at a rate of 1.25 fl oz per 100 lbs of seed. **CCR 075050** has been widely used to enhance color of pre-colored seed treatments along with the convenience of **FREE FLOW** all in the same product.

EXAMPLE OF CUSTOM COVERAGE RED COMBINATIONS		FREE FLOW™		
COLORIZER RED		0.75 oz/cwt	1.00 oz/cwt	1.25 oz/cwt
0.50 oz/cwt	CC CODE:	075050	100050	125050
	RATE OZ/100	1.25 oz	1.50 oz	1.75 oz
0.75 oz/cwt	CC CODE:	075075	100075	125075
	RATE OZ/100	1.50 oz	1.75 oz	2.00 oz
1.00 oz/cwt	CC CODE:	075100	100100	125100
	RATE OZ/100	1.75 oz	2.00 oz	2.25 oz

Combinations with varied levels of FREE FLOW and COLORIZER RED.

COLORIZER™ ORANGE
CUSTOM COVERAGE™ ORANGE
FREE FLOW™ POLYMER

CUSTOM COVERAGE ORANGE

When mixed with pre-colored treatments, like Cruiser Maxx Advanced® or Acceleron® custom blends, **CUSTOM COVERAGE ORANGE** enhances color intensity and shifts treatment from red to orange in appearance.

Cruiser Maxx Advanced®

Cruiser Maxx Advanced® + CUSTOM COVERAGE ORANGE at 1.50 oz

COLORIZER™ BLUE
CUSTOM COVERAGE™ BLUE
FREE FLOW™ POLYMER

CUSTOM COVERAGE BLUE

CUSTOM COVERAGE BLUE rounds out the standard CC products.

GREEN and other colors can be special ordered and considered.

CUSTOM COVERAGE SUGGESTED USE RATE:	See **FREE FLOW** rates + **COLORIZER** rates

COLORIZER™

SEED TREATMENT COLORANT

AQUEOUS COLOR DISPERSIONS DESIGNED FOR SEED TREATMENT

COLORIZER™ RED

COLORIZER™ ORANGE

COLORIZER™ BLUE

COLORIZER™ products are formulated with high levels of color intensity in aqueous dispersions designed for a broad range of uses in seed treatment applications.

COLORIZER RED, **ORANGE** and **BLUE** represent standard colors in the **COLORIZER** portfolio. Other colors such as green, violet, yellow, and black are available on a special order basis.

COLORIZER SUGGESTED USE RATE:	0.25 - 1.5 fl. oz. per 100 lbs of seed
