

Hydro-Wet[®] Pellets

Turf & Soil Wetting Agent

Directions for Use

Golf Course Greens, Tees and Fine Turf

One Hydro-Wet Pellet will provide approximately 30 minutes of treatment. Water flow rates, operating pressures, water temperature and spray nozzle design all have an effect upon the rate at which the pellet will dissolve. It is recommended that a new Hydro-Wet Pellet be added to the applicator after the first has been dissolved to 1/3 its original size. Thoroughly clean applicator after use.

Use Rates: Place one Hydro-Wet Pellet into an applicator. Apply 2 to 4 minutes per 1,000 sq. ft. of turfgrass. Treat weekly or as needed. For in-season problems with localized dry spots, extend the application time to 4 to 8 minutes. To prevent the occurrence of localized dry spots, begin applications at least one month prior to moisture stress. Note: It is advisable to hand water or irrigate turf area following an application to assist the movement of the active ingredient into the turf.

First Aid

Call a poison control center or doctor/physician if you feel unwell and for further treatment advice.

If In Eyes: Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye.

If On Skin or Clothing: Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical advice/attention.

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.

NOT A PLANT FOOD PRODUCT

Principal Functioning Agents

Polyoxyethylenepolypropoxypropanol, glycol butyl ether...50.0%
 Inert ingredients..... 50.0%
Total.....100.0%

KEEP OUT OF REACH OF CHILDREN

Hazard Statements

May be harmful if swallowed. Causes mild skin irritation. Causes eye irritation.

Precautionary Statements

Wash hands, face and other affected areas thoroughly after handling. Avoid contact with eyes/clothing and prolonged contact with skin. Avoid breathing vapors. Work in a well-ventilated area. If medical advice is needed, have product label on hand. Read label before use.

General Information

Hydro-Wet Pellets are designed to supplement regular applications of KALO's Hydro-Wet turf wetting agent in reducing the incidence of dry spot on turfgrass. Hydro-Wet Pellets reduce the surface tension of water and aid infiltration into hydrophobic soils. Hydro-Wet Pellets must be applied with a hose-end applicator specifically designed to slowly dissolve the pellet into the water flow. They are often referred to as a "Pellet Applicator" or "Drencher."

KALO, Inc., 13200 Metcalf Ave., Overland Park, KS 66213 USA
