

H2O Maximizer® Pellets

H2O Maximizer® Pellets

Soil Surfactant / Polymer Resin Blend

CONTAINS BENEFICIAL SUBSTANCE

Alkylpolyglucoside.....	14.45%
Poloxalene.....	5.35%
Poly (2-propenamide).....	0.20%

KEEP OUT OF REACH OF CHILDREN WARNING

Hazard Statements

- Causes serious eye irritation.
- Causes mild skin irritation.

Precautionary Statements

- Wear protective gloves and eye/face protection.
- Wash thoroughly after handling.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

General Information

H2O Maximizer Pellets contain H2O Maximizer liquid formula packaged in a convenient system for supplemental treatment of highly maintained turf areas.

H2O Maximizer has the ability to hold more plant available water due to the polymer resins in the formula. This makes H2O Maximizer extremely effective for newly seeded and sodded areas, bunker faces or anywhere a turfgrass manager wishes to give the soil more plant available water holding capacity.

H2O Maximizer Pellet will effectively treat localized dry spot in a wide range of soil types and turfgrass varieties.

Use H2O Maximizer Pellet as a part of a comprehensive water management program for curative treatment of localized dry spot.

H2O Maximizer Pellet is formulated for use on golf courses, athletic fields, commercial, and residential turf.

Commercial Hose-End Applicator Directions

Remove the plastic lid, insert the H2O Maximizer Pellet and the plastic jar into the reservoir of the hose-end applicator with the opening of the jar containing the pellet facing toward the flow of water. Secure the reservoir to the applicator and begin application.

Inserting the jar with the pellet facing away from the water flow will slow the rate of erosion of the pellet thereby reducing the amount of wetting agent dispersed over time. This is an acceptable option for minimizing wetting agent use.

Use Rates For Golf Course Greens, Tees and Other Highly Maintained Turf Areas

Place one pellet into an applicator. Apply 2 to 4 minutes per 1,000 sq. feet (100 sq. meters) of turfgrass.

The rate at which a pellet dissolves varies with water pressure, flow rate and temperature.

Reapply H2O Maximizer Pellet as a curative treatment or follow-up maintenance in conjunction with a regular water management program.

Storage and Disposal

STORE PRODUCT BELOW 90°F!

Do not store near heat or open flame. Store in cool dry environment. Keep out of direct sunlight. Store in original container. Keep container tightly closed. Do not reuse product containers. Dispose of contents and container in accordance with local and national regulations.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
