

Tank Cleaner™

General Information

Tank Cleaner is designed for cleaning tanks, lines and nozzles to remove pesticide, herbicide and fertilizer residues. Tank Cleaner also removes light rust and dissolves deposit buildups while leaving a protective film that helps prevent corrosion.

Directions for Use

Tanks or Sprayers Equipped with Hand Gun or Hose: Add one pound of Tank Cleaner to 100 gallons of water. Close valve to spray boom, open by-pass valve and agitate vigorously for 15 minutes. Use hand gun or hose to cleanse inside of tank. Open spray boom to flush tank cleaner and water solution out of tank. For sprayers being reused immediately, refill tank with 100 gallons of water, close hand gun valve and empty sprayer through boom nozzles. For sprayers being stored, do not rinse after treatment. Tank Cleaner leaves a protective film to prevent corrosion.

Tanks or Sprayers Not Equipped with Hand Gun or Hose: Fill tank with water and add one pound of Tank Cleaner per 100 gallons of water. Then follow above instructions. Important: For best results, fill tank with one pound of Tank Cleaner per 100 gallons of water, agitate and circulate throughout spray system, let stand 3 to 4 hours. Drain and rinse entire system thoroughly.

For Small Sprayer: Use one teaspoon per one gallon of water. Agitate vigorously, rinse with water, then repeat procedure.

For Cleaning Fertilizer Equipment: Flush equipment with water. Mix one pound of Tank Cleaner in 50 gallons of water and spray all parts that have been in contact with fertilizer with tank cleaner and water solution. Always flush with water before reuse.

Storage and Disposal

Store locked up. Keep container tightly closed and away from incompatible materials (soft metals and acids). Dispose of contents/container to local, state and federal regulations.

Contains

Complex Phosphates, Sodium Sulfate,
Sodium Carbonate, Sodium Hydroxide,
Monocyclic Terpenes and Nonionic Surfactant

**KEEP OUT OF REACH OF CHILDREN
DANGER**

Hazard Statements

May be harmful if swallowed. Harmful in contact with skin. Causes severe skin burns and eye damage.

Precautionary Statements

Do not breathe dust/fume/gas/mist/vapors/spray. Wear protective gloves/clothing/eye/face protection. Call a poison control center or doctor/physician if you feel unwell. If on skin: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Remove/take-off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center doctor/physician. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do; continue rinsing. Handling: Wash hands, face and other affected areas thoroughly after handling. Handle under inert gas.

Special Precautions

After Use of Products Containing 2, 4-D Corners, cracks, hoses, seals, etc., tend to retain these materials and require special attention. After flushing with Tank Cleaner, rinse with water as directed, and retain a sample of the rinse water. Apply this sample to a susceptible plant, such as an ornamental, tomato, or vine. Observe after several hours (preferably 24 to 48 hours, depending on weather conditions). If wilting occurs, repeat cleaning process as recommended in the Directions For Use.
