

Tank Cleaner™

Dry Tank Cleaner

GENERAL INFORMATION

Tank Cleaner is designed for cleaning tanks, lines and nozzles to remove pesticide, herbicide and fertilizer residues.

Tank Cleaner also removes light rust and dissolves deposit buildups while leaving a protective film that helps prevent corrosion.

USE RATES AND DIRECTIONS

Tanks or Sprayers Equipped with Hand Gun or Hose: Add one pound of Tank Cleaner to 100 gallons of water. Close valve to spray boom, open by-pass valve and agitate vigorously for 15 minutes. Use hand gun or hose to cleanse inside of tank. Open spray boom to flush tank cleaner and water solution out of tank. For sprayers being reused immediately, refill tank with 100 gallons of water, close hand gun valve and empty sprayer through boom nozzles. For sprayers being stored, do not rinse after treatment. Tank Cleaner leaves a protective film to prevent corrosion.

Tanks or Sprayers Not Equipped with Hand Gun or Hose: Fill tank with water and add one pound of Tank Cleaner per 100 gallons of water. Then follow above instructions. Important: For best results, fill tank with one pound of Tank Cleaner per 100 gallons of water, agitate and circulate throughout spray system, let stand 3 to 4 hours. Drain and rinse entire system thoroughly.

For Small Sprayer: Use one teaspoon per one gallon of water. Agitate vigorously, rinse with water, then repeat procedure.

For Cleaning Fertilizer Equipment: Flush equipment with water. Mix one pound of Tank Cleaner in 50 gallons of water and spray all parts that have been in contact with fertilizer with tank cleaner and water solution. Always flush with water before reuse.

TECHNICAL INFORMATION

Solubility in Water at 20°C: Complete

Color & Appearance: Free-Flowing Orange Powder

Odor: Citrus

Storage Temperature - Minimum: 40°F

Storage Temperature - Maximum: 120°F

DOT/IMDG Transportation: UN1759, Corrosive Solid, N.O.S., (contains sodium hydroxide & disodium trioxosilicate), 8, PG II

Registered With CDPR: N/A

Registered With WSDA: N/A

CONTAINS

Complex Phosphates,
Sodium Sulfate,
Sodium Carbonate,
Sodium Hydroxide,
Monocyclic Terpenes and
Nonionic Surfactant

PACKAGING

12 x 1 pound jar
10 cases per pallet
Item#: TC01

6 x 4 pound jar
10 cases per pallet
ITEM#: TC04
