

PRODUCT INFORMATION

Concord™

SPRAY ADJUVANT / DEPOSITION AID

GENERAL INFORMATION

Concord is a unique adjuvant that delivers deposition enhancement and improved uptake, while providing an alternative to traditional nonionic surfactant, methylated seed oil, and crop oil concentrate adjuvants.

Concord provides equivalent or superior efficacy enhancement with improved crop safety.

Concord enhances absorption of water-soluble herbicides and is compatible with most pesticides and liquid fertilizers.

USE RATES

Ground: Use at 4 quarts per 100 gallons of spray mixture, or 1.0% by volume. This rate provides the spray adjuvant functions of both crop oil concentrates and surfactants.

Aerial: Minimum of 3 to 6 ounces per acre in 1 to 5 gallons of spray.
