

Maxway II™

Maxway II™

WATER CONDITIONER / VRA / NIS / DRA /
DEPOSITION AID / ANTIFOAM

Principal Functioning Agents

Alkali metal salts of carboxylic acid, alkylpolyglucoside, acrylamide polymer.....	50.0%
Constituents ineffective as spray adjuvants.....	50.0%
Total.....	100.0%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

Hazard Statements

- Causes serious eye irritation.

Precautionary Statements

- Wash thoroughly after handling.
- Wear protective gloves and eye/face protection.
- If In Eyes: Rinse continuously with water for several minutes.
- Remove contact lenses if present and easy to do; continue rinsing.
- Immediately call a poison center or doctor/physician.
- If On Skin: Wash with plenty of soap and water.
- If skin irritation or a rash occurs, get medical advice/attention.
- Take off contaminated clothing and wash before reuse.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

General Information

Maxway II is an all-in-one, water conditioner, volatility reducing agent (VRA), nonionic surfactant (NIS), drift reducing agent (DRA) and deposition aid adjuvant for use with dicamba tank-mixes. Maxway II offers the convenience of a single use tank mix adjuvant that meets all the requirements for accompanying dicamba herbicide labels.

Maxway sequesters hard water minerals to minimize antagonism of the spray mixture for enhanced herbicide efficacy. Maxway II contains a proven volatility reducing agent that binds protons (H+) in the spray solution to significantly limit the formation of dicamba acid, a primary cause of spray application volatility.

The surfactant ingredient in Maxway II improves spray droplet spreading and penetration into the targeted leaf surface. Maxway II provides humectancy to spray droplets resulting in a slower drying time for enhanced uptake of active ingredients.

Maxway II reduces spray drift and enhances deposition by improving canopy coverage and penetration, reducing droplet bounce, and minimizing formation of small droplets that may be prone to off-target drift or evaporation.

Maxway II has clearly demonstrated effective performance and is available for use as an all-in-one adjuvant for Xtendimax®, Engenia® and Tavium® dicamba applications to effectively manage hard water, spray volatility, impart surfactancy, reduce spray drift, slow spray droplet drying time and suppress tank mix foam when applying dicamba.

Directions For Use

Always follow the precautions, restrictions, recommended use rates and application directions appearing on the labels for each product to be tank mixed. It is the applicator's responsibility to ensure that all products are registered for the intended use.

For Use With Engenia, Tavium and Xtendimax: Use Maxway II at 26 ounces per acre in a minimum of 15 gallons of water per acre (or 1.56% v/v).

Mixing

Unless otherwise instructed by herbicide label, fill tank one-half full with water and begin agitation, then apply Maxway II first to the tank mix while agitating, then add other tank mix ingredients and complete filling spray tank water.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in tightly closed containers in a dry, well-ventilated area away from excessive heat and incompatibles.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

Environmental Hazards: Not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

Emergency Phone Numbers

Have the product container with you when calling a poison control center or doctor, or going for treatment.

- CHEMTREC (transportation & spill): (800) 424-9300
- POISON CONTROL CENTER (human health): (800) 222-1222

Xtendimax is a registered trademark of Bayer Cropscience

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
