

Hydro-Wet® Pellets

Hydro-Wet® Pellets Turf Wetting Agent

Principal Functioning Agents

Polyoxyethylenepolypropoxypropanol, glycol butyl ether.....	50.0%
Inert Ingredients.....	50.0%
Total.....	100.0%

KEEP OUT OF REACH OF CHILDREN WARNING

- May be harmful if swallowed.
- Causes mild skin irritation.
- Causes eye irritation.

Precautionary Statements

- Wash hands, face and other affected areas thoroughly after handling.
- Avoid contact with eyes/clothing and prolonged contact with skin.
- Avoid breathing vapors.
- Work in a well-ventilated area.
- If medical advice is needed, have product label on hand.
- Read label before use.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

General Information

Hydro-Wet Pellets are designed to reduce the incidence of dry spot on turfgrass. Hydro-Wet Pellets reduce the surface tension of water and aid infiltration into hydrophobic soils. Hydro-Wet Pellets must be applied with a hose-end applicator specifically designed to slowly dissolve the pellet into the water flow.

Commercial Hose-End Applicator Directions

Using available commercial in-line hose applicators, remove the plastic lid, insert the Hydro-Wet Pellet AND the plastic jar into the reservoir of the hose-end applicator with the opening of the jar containing the pellet facing toward the flow of water. Secure the reservoir to the applicator and begin application. Inserting the jar with the pellet facing away from the water flow will slow the rate of erosion of the pellet thereby reducing the amount of wetting agent dispersed over time. This is an acceptable option for minimizing wetting agent use.

One Hydro-Wet Pellet will provide approximately 30 minutes of treatment. Water flow rates, operating pressures, water temperature and spray nozzle design all have an effect upon the rate at which the pellet will dissolve.

It is recommended that a new Hydro-Wet Pellet be added to the applicator after the first has been dissolved to 1/3 its original size. Thoroughly clean applicator after use.

Use Rates For Golf Course Greens, Tees and Other Highly Maintained Turf Areas:

Place one Hydro-Wet Pellet into an applicator. Apply 2 to 4 minutes per 1,000 sq. ft. of turfgrass. Treat weekly or as needed. For in-season problems with localized dry spots, extend the application time to 4 to 8 minutes. To prevent the occurrence of localized dry spots, begin applications at least one month prior to moisture stress.

Note: It is advisable to hand water or irrigate turf area following an application to assist the movement of the active ingredient into the turf.

NOT A PLANT FOOD INGREDIENT

Storage and Disposal

Storage: Do not store near heat or open flame. Keep pellets cool. High temps may cause pellets to melt. Keep container tightly closed. Do not reuse product containers. Keep in cool and dry environment.

Disposal: Do not reuse product containers. Dispose of contents and container in accordance with local and national regulations.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
