

Citrix™

Citrix™

Penetrant, Wetting Agent, Spreader**Principal Functioning Agents**

Alcohol alkoxylate, sodium laureth sulfate.....	12.15%
Constituents ineffective as spray adjuvants.....	87.85%
Total.....	100.00%

Surfactant Content...22.8%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN****WARNING****Hazard Statements**

- Causes serious eye irritation.
- Causes mild skin irritation.
- May cause an allergic skin reaction.
- Combustible liquid.

Precautionary Statements

- Keep away from heat, sparks, open flames and hot surfaces. No smoking!
- Avoid breathing dust, fume, gas, mist, vapors and spray.
- Wash thoroughly after handling.
- Wear protective gloves and eye/face protection.
- Contaminated work clothing should not be allowed out of the workplace.
- IF IN EYES: Rinse continuously with water for several minutes.
- Remove contact lenses if present and easy to do; continue rinsing.
- If eye irritation persists, get medical advice/attention.
- IF ON SKIN OR CLOTHING: Wash with plenty of soap and water.
- If skin irritation or a rash occurs, get medical advice or attention.
- Wash contaminated clothing before reuse.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

General Information

Citrix is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop use as a tank mix adjuvant. The unique surfactant chemistry provides enhanced wetting and absorption of nutrient and crop control tank mix partners that recommend the addition of an adjuvant to improve performance. Use Citrix for superior spray application spreading, penetration and uniform distribution of the spray application. The nonionic surfactant component in Citrix assists with the spreading and infiltration of the spray deposit. Citrix may be used with most fungicides, insecticides, and fertilizer products in keeping with instructions on the accompanying crop protection or fertilizer label.

Mixing

Conducting a jar test containing all tank mix ingredients at their desired ratio and dilution to confirm compatibility prior to conducting full scale application is suggested. Fill the spray tank 1/2 full of water, then add crop control and/or fertilizer products in accordance with corresponding label instructions for mixing. Unless, instructed otherwise by labels, add Citrix last to the tank mix and fill remaining water, then begin agitation. Additional anti-foam during agitation may be necessary.

CA Registration Number: 45989-50042-AA

Directions For Use

Always read and follow label instructions for all companion products that are being used with Citrix.

Use Rates for Herbicides: 25 to 64 fluid ounces per 100 gallons of water.**Use Rates for Insecticides, Fungicides, Miticides and Foliar Nutrients:****Air-assisted sprayers & conventional sprayer in field and row crops:** 25 to 64 fluid ounces per 100 gallons of water.**ULV equipment such as aerial, electrostatics, foggers and misters:** 25 to 64 fluid ounces per 100 gallons of water.**Precautions**

The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. Care should be exercised when using on new varieties or crops not previously treated with Citrix.

Storage, Disposal & Spill

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Store in a well-ventilated place. Keep cool. Store in a tightly closed container. Store in original container only.

Disposal: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.agrecycling.org. Dispose of contents and container in accordance with local and national regulations.

Spill or Fire: In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300. Use alcohol resistant foam, CO₂, powder, water spray to extinguish. Do not use water jet.

Environmental Hazards

Not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

DOT Shipping Statement - For Containers Greater Than 119 Gallons Only!

NA1993, Combustible Liquid, N.O.S., (dipropylene glycol methyl ether), PG III

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.

WA Registration Number: 45989-20001

Directions For Use

Always read and follow label instructions for all companion products that are being used with Citrix.

Use Rates

HERBICIDES, DEFOLIANTS, DESICCANTS: 25 to 64 fluid ounces per 100 gallons of water. Use higher rates on weeds with waxy or hairy leaf surfaces that are hard to penetrate.

Plant Growth Regulators: 5 to 10 fluid ounces per 100 gallons of water.

INSECTICIDES, FUNGICIDES, MITICIDES, FOLIAR NUTRIENTS

Air-assisted sprayers & conventional sprayer in field and row crops: 25 to 64 fluid ounces per 100 gallons of water.

ULV equipment such as aerial, electrostatics, foggers and misters: 25 to 64 fluid ounces per 100 gallons of water.

Chemigation* through irrigation systems such as drip, microjet, sprinklers or pivot: 10 to 20 fluid ounces per acre. *Not approved in CA.

Precautions

The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. Care should be exercised when using on new varieties or crops not previously treated with Citrix.
